Summary

# Start inspired

We were inspired for our idea seeing this worse condition of the ongoing pandemic and also one of the major problems faced by old age at railway stations.

# Basic Idea

Our website gives some of the least noticed but most important services. We have planned to have numerous coolies of our own at railway stations, maids to help at your home and tiffin delivery to get you hot and fresh food at your doorstep.

**COOLIE**  
**Service**

# Find Coolie with ease

1  
Log in into our website.

2  
Enter your train details and location of pickup.

3  
Avail the coolie service without any hustle.

**MAID**  
**Service**

# Find a Maid perfect for your home chores

1  
Log in into our website.

2  
Select the work you want to get done and enter your address.

3  
Get the cost of the services at your email and select accordingly.

**TIFFIN**  
**Service**

# Order Food and get it served hot at your doorstep

1  
Log in into our website.

2  
Select the food catagory and enter your address.

3  
Enjoy the freshly prepared food served hot at doorstep.

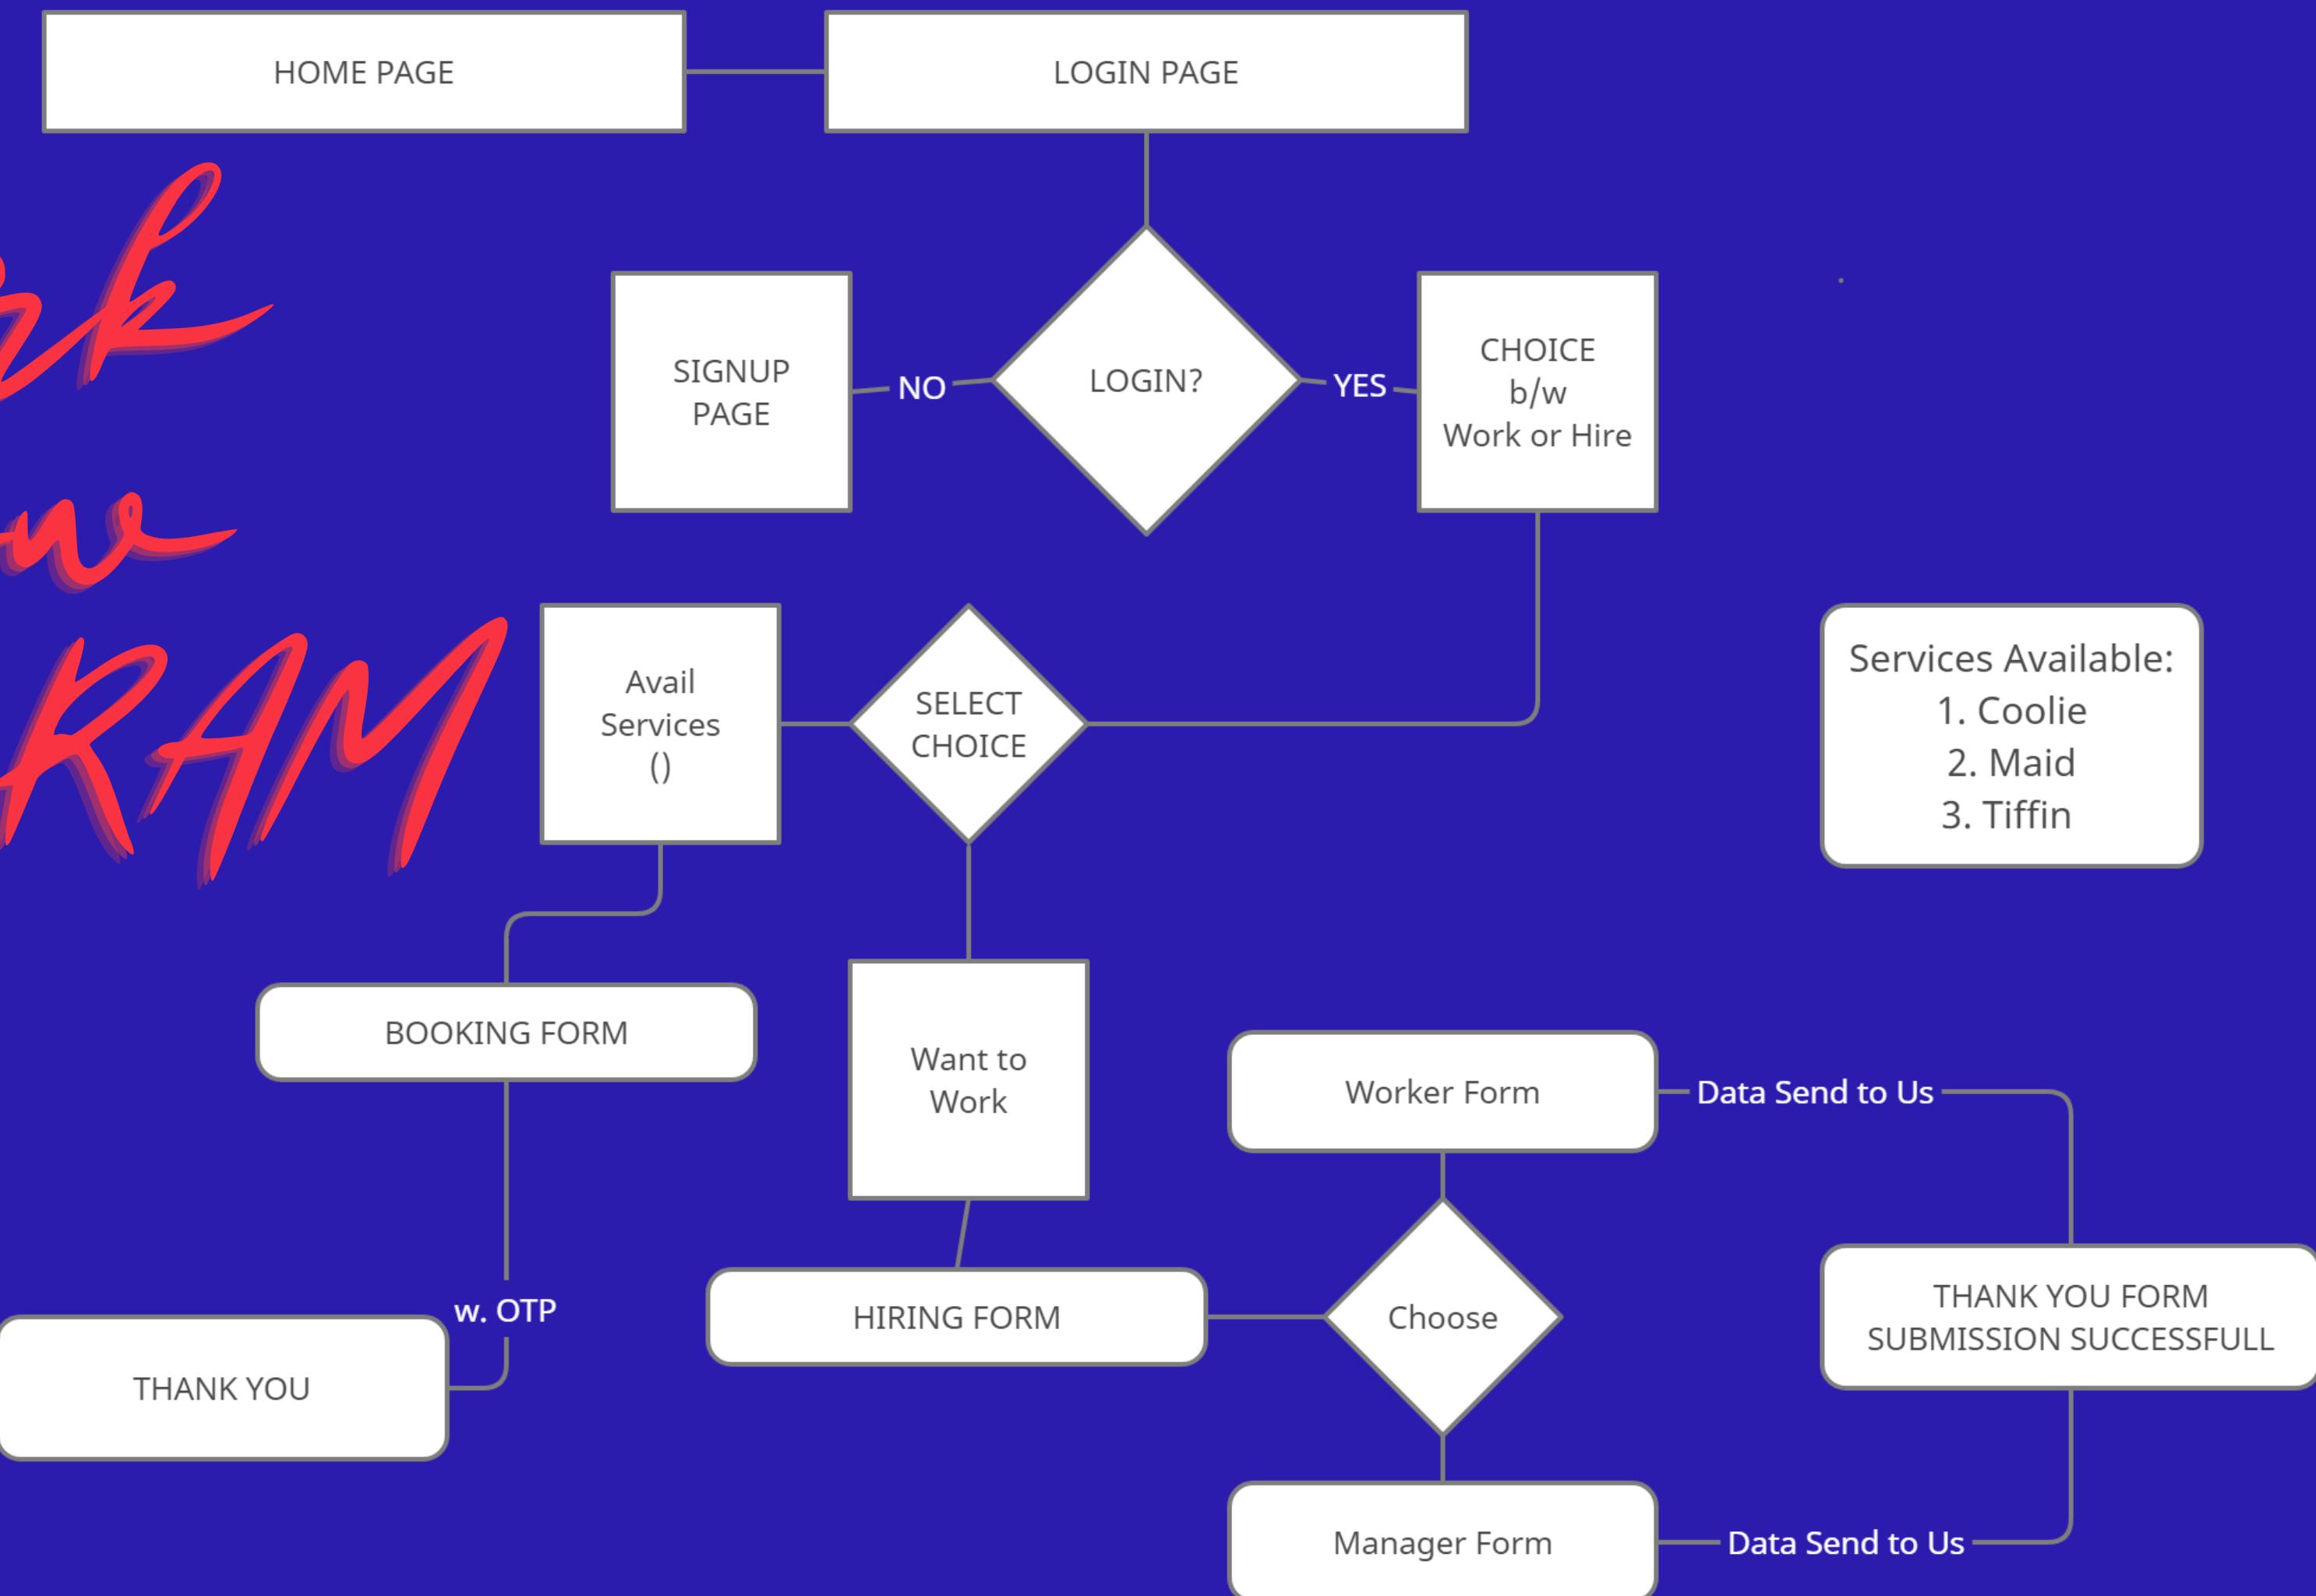

# Recruitment perspective

# Our motive behind recruitment...

Looking at the current pandemic situation and the highly reduced job opportunity it has caused along with low income in several fields, we decided that we will be recruiting needy people for our organization for various scenarios.

# Expected Growth

With our product , we visualize a great scope in future as , these jobs are odd jobs and are not managed at all with this , we want this to be planned and organized as it would help to generate income for low wage worker , and would be helpful to all.

**WE EXPECT THIS MODEL TO BE IMPLEMENTED FOR ALL ODD JOBS.**
